MESSAGE FROM THE PRESIDENT

Jean Launay,
President of the FWP

The French Water Partnership, which I have the honor of presiding, is the platform; a crossroad where every type of French water stakeholder meets with international activities : government and public institutions, local authorities, NGOs, small and big companies, research and training organizations, experts. Every day, these players work hand in hand to make water a top priority on the international agenda.

For the past 10 years dating back to its creation, the FWP has upheld this collective French DNA and is proud to continue to do so.

Building on its multi stakeholder expertise, the FWP will pursue its actions to:

- Position water as a key component of the 2015-2030 Sustainable Development Goals, but also as a major part of topics such as climate change, biodiversity, food security, etc...
- Achieve measurable progress in the water field ; it is our duty and our responsibility.
- Share our collective knowledge of water with our international partners through "French water management study tours" and the implementation of moments of cultural exchanges between our members and their foreign counterparts.

At a time where 40% of the world population is already suffering from water stress, it is our mission to act and ensure that water ranks high in the concerns of decision makers around the world and that the mindsets change. I therefore call on our members to pursue their efforts by our side, I call on new French water stakeholders to join our cause and I finally call on our international partners to exchange with us.

Together, let's think, let's share, and let's act so that water remains a peace issue for the years to come!

A handwritten signature in blue ink, which appears to read 'J. Launay'. The signature is stylized and fluid. It is positioned to the right of the concluding text block.

FWP

An active defender of water on the international scale since 2007

Ever since its creation, the FWP has worked to:

- Make water an international and European political priority.
- Facilitate the implementation of the Sustainable Development Goals, the fight against climate change and the development of nature-based solutions.
- Raise public awareness on water issues.

A historical binding facilitator for French stakeholders

The FWP shines a light on the French water expertise, and its profound multi-stakeholder nature established more than 50 years ago.

- The FWP produces messages which are representative of the complementarity and diversity of its members.
- It carries the voice of the French collective in the events and the international arenas.
- It acts as the secretariat of the French Committee for UNESCO's International Hydrological Programme to promote French scientific research.

for the International
Hydrological Programme

FWP: a source of collective action during water highlights

World Water Forums and World Water Weeks

The FWP is the historical coordinator of the French delegation.

Climate and biodiversity conventions

Contributes to the integration of water within the climate and biodiversity Agenda. Initiator and member of the international initiative climateiswater.

United Nations Sustainable Development Goals

Assists the implementation of the Water goal and other water-related targets

Water Expertise

Promotes the French know-how at the international level. Co-creator of the brand "Water Expertise France".

#CLIMATE
IS WATER

A THINK TANK FOR WATER INTELLIGENCE

The FWP coordinates cross-disciplinary working groups, giving a multi-stakeholder input on the principal issues which are linked to water today.

Three strategic and structuring themes

Water in the Sustainable
Development Goals

Global and Climate Change

Biodiversity

Our other fields of expertise

Food Security

Sustainable Cities

Emergency, Reconstruction
and Development

Access to drinking water

Sanitation

Solidarity Mechanisms

Energy

Training

Governance

Water basin management

Financing

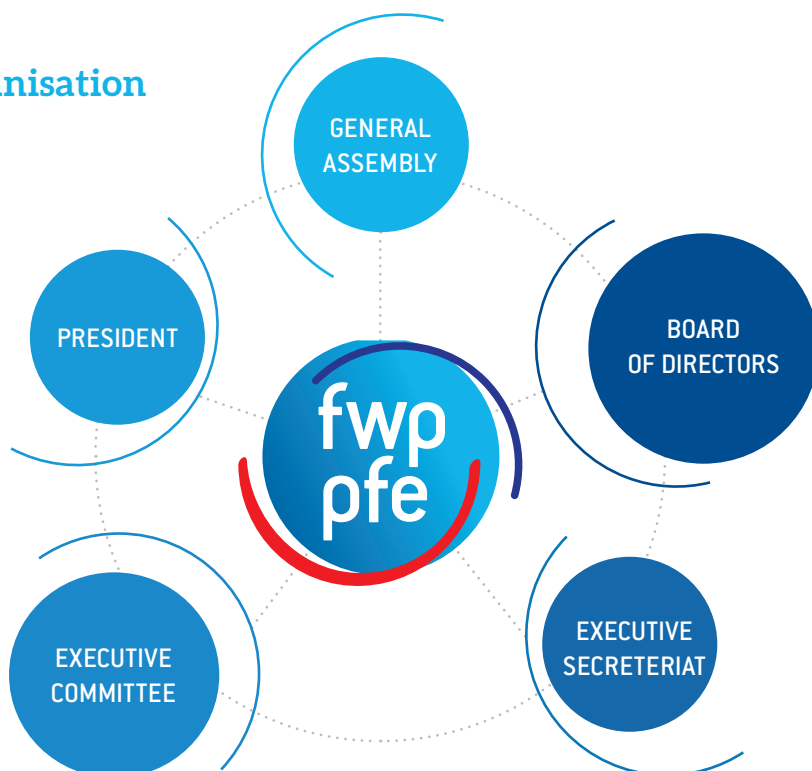

Innovations
and French Know-how

A COLLECTIVE AND TRANSPARENT GOVERNANCE

The FWP develops its activity using participative and consensual working practices, without prominence of one member category over another. Its members commit to developing the FWP action programme, by participating in its thematic and cross-disciplinary working groups.

FWP organisation

FRENCH STAKEHOLDERS, DISCOVER THE ADVANTAGES OF BECOMING A MEMBER

By joining us as a FWP member, you:

- Enter a circle of discussion and exchange promoting joint values and commitments.
- Promote your expertise in France and in European and international arenas.
- Benefit from an organized framework optimizing exchanges with your international partners during major events such as World Water Forums, World Water Weeks, climate and biodiversity conventions, etc.
- Have access to privileged information on the topic of water, both nationally and internationally.

BECOMING A MEMBER

Find the subscription form on our website, in the "members" section.

INTERNATIONAL STAKEHOLDERS, CONNECT WITH THE FRENCH EXPERTS

Specialist of water management in France, The FWP has put together a database to share the fruit of its experience with a public keen on discovering the expertise of French water stakeholders throughout the world.

The FWP also offers « French water management study tours » which allow foreign water delegations staying in our country to discover French partners and solutions.
