

French Water Partnership and Global Alliances for Water and Climate event

ECOSYSTEM-BASED ADAPTATION: COMING TOGETHER FOR WATER!

Action Hub, Saturday 8 December, 14:00-15:00
(english only)

This event will aim at reminding the strong linkages between aquatic biodiversity and climate change, encouraging debates and reflections on ecosystem-based adaptation. It will also be a key moment to call to sign the declaration and officially launch the related platform nature4water.

PROGRAM

Video screening « Aquatic biodiversity in danger ! »

Ted-style talk on aquatic biodiversity and climate change interlinkages Solène Fabrèges, French Water Partnership (5min)

Presentation of a nature-based solutions project Sena Alouka, Executive Director, Jeunes Volontaires pour l'Environnement (15min)

Discussion with the room moderated by Edouard Boinet, Global Alliances for Water and Climate (15min)
