

aterpreneurs

Safe investments for safe water

MISSION

Waterpreneurs aims to help solve the problems raised by the 17 Sustainable Development Goals (SDG) with a focus on SDG No. 6 (Water and Sanitation).

Waterpreneurs works on a dialogue and provides multi-stakeholder solutions (private, public, civil society ...) around issues of human rights, security and peace in the world, through the development of entrepreneurs who provide basic services to the most vulnerable populations, in particular through access to drinking water.

WATERPRENEURS

Safe investments for safe water

UNIQUE VALUE PROPOSITION

Waterpreneurs brings global expertise in:

- **Business and human right** to water and sanitation (SDG 6)
- **Lean, operative and impactful collaboration** between the private sector, the public sector and civil society, in the water and sanitation space
- **Impact investments, blended finance and hybrid business models** supporting the growth of local water and sanitation entrepreneurs

The combination of these three expertise allows us to help our clients, partners and friends develop impactful global and local action plans supporting

Safe investments for safe water

Our activities and services are systemic and create local **peer-to-peer due diligence mechanisms** for global impact. Waterpreneurs foster interactions between global players from the private sector, the public sector and from civil society **to direct finance toward impact projects in the communities.**

Waterpreneurs vision is implemented through 3 lines of service:

1. **Training and auditing** on “Water & Human Rights for Business”
 - a. Audit / Risk Assessments of industrial sites and supply chains
 - b. Monitoring and Reporting, aligned on SDGs and GRI
 - c. Mediation and Mitigation of risks conducting to the implementation of sustainable community based solutions
2. **Impact Investing**
 - a. **Sourcing** « Water Responsible Entrepreneurs » who are serving low income populations
 - b. **Developing** “Water Impact Investment Funds” supporting Water Responsible entrepreneurs in the scaling-up of their activities
3. **Facilitating** Corporate Value Chains (in particular Agri/Food) who are facing water issues where they are operating (in particular the low-income communities from which they are sourcing their raw materials).
